

For Immediate Release

Clay & Bailey, a leading foundry since 1913, joins the CWR effort to bring innovative new solutions to the underground infrastructure market.

FAIRFIELD, Connecticut—June 1, 2006

Clean Water Resources (“CWR”) and Clay and Bailey Manufacturing Co. Inc. (“Clay & Bailey”) announced that Clay & Bailey, a leading foundry since 1913, will be manufacturing the covers for The Lifespan System® and will also be a primary distributor of The Lifespan System® in the mid-west region.

David Sinclair, President of CWR, said “we are delighted to be working with Clay & Bailey and to have them on the Lifespan team. Ron Borst and his team have demonstrated a progressive and solution-centric approach in helping their clients. They are a well-established player in their markets and, with Lifespan, will be helping to drive innovation in the area of municipal castings.” Ron Borst, President of Clay & Bailey added, “the Lifespan System is an obvious choice for those looking to extend service life and improve the performance of manholes while eliminating inflow. We are excited about helping CWR bring this unique and innovative solution to the market.”

About Clay & Bailey (www.claybailey.com):

Clay and Bailey Manufacturing Company has been helping give shape to America's ideas since 1913. Since our early years of casting plumbing hardware to our most recent developments in alternative materials such as Ultra High Molecular Weight Polyethylene, we have sought to provide the kind of quality and service which you expect from a leading automated foundry. By expecting to accommodate developments in oil field equipment, municipal casting and many custom needs in gray iron castings, Clay and Bailey has become an integral Midwestern foundry in step with the rapid changes of American industry. Attention to efficiency in the plant and proper environmental controls have helped Clay and Bailey provide a standard of excellence which goes beyond mere words, a standard which is proudly demonstrated in every product which bears our name.

About Clean Water Resources (www.CleanWaterResources.com):

Clean Water Resources is a multi-dimensional private company that distributes leading-edge products and markets financial solutions for infrastructure, with particular emphasis on the sewer and water industry. It recently introduced Duracoat™ (an ultra high performance concrete) and The Lifespan System®, (a state-of-the-art system for manholes, catch basins and utility structures). The CWR Capital Program is a design-build-finance (D/B/F) contracting solution that provides risk capital and performance-based payment alternatives to system owners for addressing Clean Water and underground infrastructure issues.
