

*CWR is dedicated to helping asset owners improve and maintain the performance of their drainage, sewer and water infrastructure ...with a focus on **long term performance and sustainability.***

LEED-friendly, High-Performance Products

The Lifespan System®

- Integrated, manhole frame, adjustment and cover system

- ✓ Non-corroding
- ✓ Load-absorbing
- ✓ Water-tight

Duracoat®

- Ultra High Performance Concrete (UHPC) for renewal of existing structures

- ✓ Low CO2
- ✓ High corrosion resistance
- ✓ Single-step application
- ✓ Structural lining

2X Green

- High Performance Green Concrete (HPGC) for new construction

- ✓ Twice the service life
- ✓ Up to 70% reduction in CO2
- ✓ Designed and tested to meet highest performance standards
- ✓ Available to local suppliers

CWR performance solutions

- ✓ Longer service life
- ✓ Lower lifecycle cost
- ✓ Larger energy savings

Performance-Based Sewer System Renewal & Maintenance

CWR Capital Program

- A privately funded, Design-Build-Finance (D/B/F) performance-based contracting solution for reclaiming sewer and water system capacity

- ✓ A procurement and funding alternative for increasing sewer system capacity
- ✓ Reduces financial and project performance risk
- ✓ Utilizes existing engineers, contractors and labor
- ✓ Focuses on 'system flows' and returning collection and distribution systems to 'flow design specification'
- ✓ Provides a long-term performance-based maintenance alternative to maintain the target flow reductions and performance levels
